

Toni & The Masters

Toni Ann Winninger is a channel for the **Masters of the Spirit World**, a fun-loving and ever-changing group of enlightened Ascended Masters who have spent many lives among us, and souls who have never incarnated, such as Archangels and the like.

“We are here to assist you who are contained in a physical form to accomplish your various earth lessons and life missions. We do this in Unconditional Love in which we exist,” said the Masters. “All we ask is that you listen to the messages we are going to deliver and see how they ‘feel’ to you. Don’t think about them, don’t analyze them. Just let your heart tell you their truth.”

Toni said: “The Masters simply ask me to take the energetic vibrations that they send through me, and tune them and translate them for all to hear. What are you to do with their words? Use your freedom of choice to feel whether they should be part of your reality.”
