TIME: 8:30am - 5pm

COST: S\$ 300 (*Full payment is required for registration*)
(*Availability is on a first-come-first-served basis*)

This is Dolores Cannon's **advanced class** in which she further shares from her "bag of tricks" that she has accumulated from regressing thousands of clients over the many years of her work. This class is approx. 8 hours in length and adds to what was obtained during the three day Level 1 class and the student's practicing of the technique.

You must have previously attended Dolores' three day Level 1 class to be able to attend this advanced class. You must also allow sufficient time and practice of Dolores' technique to fully appreciate the information in this class.

Dolores' training of her technique in hypnosis is protected by copyright and trademark. Thus none of her students can teach the technique, only practise it.

ABOUT DOLORES CANNON

Dolores Cannon has written fifteen popular books about a wide variety of paranormal topics. She has been a hypnotherapist specializing in past-life regression and therapy for over 35 years. She became a UFO investigator years ago and has preformed hypnosis in many suspected abduction cases. She has also investigated the Crop Circles in England on three occasions. She has traveled all over the world giving lectures and seminars.

Her books have been translated into many languages and she was the first American paranormal investigator to enter Bulgaria after its split with the Soviet Union. In Bulgaria, she was awarded the Orpheus Award for the highest advancement in the research of psychic phenomenon.

She has appeared on such major TV shows as: NBC's Ancient Prophecies, CBS' Mysteries of the Ancient World, A&E Biography Series, Sci-Fi Channel's Mysteries, Magic and Miracles, CNBC's America After Hours, CNN's Voices of the Millennium, The History Channel's The Nostradamus Effect, Project Camelot, and has been interviewed on over a thousand radio shows, including Art Bell's Dreamland, George Noory's Coast to Coast and Shirley MacLaine.

She has also written about what happens when you die and where you go afterwards in "Between Death and Life" and "Five Lives Remembered". "The Convolutioned Universe" series covers complicated metaphysical concepts.
